

Karen Theunissen

Functioning Matters

Services Offered to Insurance Companies

Experience

- Occupational therapist with 20 years experience in work assessments
- Post-graduate training in malingering
- Consultant to various employers ensuring experience in real life recommendations
- Training provided at ASISA, universities, employers and interest groups.

Assessments and Rehabilitation

- Special interest in psychiatry, pain and fatigue
- Assessments range from screenings to determine viability of rehabilitation, to comprehensive assessments for disputes and Ombudsman cases.
- Assessment techniques, such as situational assessments and simulations, ensure extrapolation to vocational ability rather than clinical status
- Vocational rehabilitation includes condition-specific programmes, PGAP™, work hardening in situ and vocational support to ensure relapse prevention.

Reports

- Semi-automated reports improve turnaround times
- Customised reports and protocols available according to your client and product needs.
